PROFILE

Motivated full-stack developer with strong skills in Java, DSA, and the MERN stack, seeking a developer role to build scalable and impactful web applications. Committed to continuous learning and delivering clean, efficient code.

EDUCATION

Rajiv Gandhi Proudyogiki Vishwavidyalaya *Bhopal, India*

Bachelor of Engineering in Computer Science Engineering 2022-2026

- Completed multiple full-stack projects using JavaScript, React, Node.js, and MongoDB

SKILLS

Technical: HTML, CSS, JavaScript, Node.js, Express, React.js, MongoDB, MySQL, Java(with DSA), Python Basic, Machine Learning (Basics)

Tools: Bootstrap, Material UI, Figma, Git & GitHub

CERTIFICATIONS

- MERN Stack Development course – [Apna College 2025]
- Internship Programme on Programming Essential of Python – [CRISP]
- IT Industry Overview | IT Job Tools | Basics of Industry Elements | Basics of Trending Technologies – [TCS 2025]
- Oracle Cloud Infrastructure 2025 Certified AI Foundation Associate – [Oracle]

EXPERIENCE

Indux Technology *Pune, India*

Full Stack Developer Intern 08/25 - Present

- Collaborated with the development team to build and enhance web application features.
- Integrated frontend (React.js) with backend APIs (Node.js, Express.js, MongoDB).
- Gained hands-on experience in CRUD operations, form handling, and database management.
- Led and coordinated with a small development team to deliver project features efficiently.
- Worked on CRM system development, implementing modules like lead management, task tracking, and customer data handling.

GoQuant

Frontend Developer (Assessment) 07/25 – 07/25

- Completed a confidential assessment project to develop a Latency Topology Visualizer using Next.js, React, and 3D mapping libraries (e.g., Three.js, Mapbox GL).
- Visualized real-time and historical latency data across major cloud regions (AWS, GCP, Azure) for cryptocurrency exchange infrastructure.

PROJECTS

Video Conferencing Website (GitHub) 05/25 – 06/25

- Built a Zoom-like video conferencing web app using MERN, WebRTC, and Socket.io.
- Features: Real-time audio/video communication, chat, screen sharing, participant control.

Stock Trading Dashboard (GitHub) 06/25 – 07/25

- Developed a Zerodha-inspired stock simulator using React, Chart.js, Express, and MongoDB.
- Features: Live stock updates, portfolio tracking, order simulation, interactive charts.

ACHIEVEMENTS

- Built 5+ full stack projects including video conferencing website and AI virtual assistance.
- Solved 200+ problems on LeetCode and 100+ on GeeksForGeeks.
- Actively participated in 5+ hackathons and various competitive programming contests, showcasing strong problem-solving, collaboration, and time management skills.
