PROFILE

Full-Stack MERN Developer skilled in React.js, Node.js, Express.js, MongoDB, and REST APIs with hands-on experience building AI-powered applications and CRM systems. Solved 250+ LeetCode problems and participated in 5+ hackathons.

EDUCATION

Rajiv Gandhi Proudhyogiki Vishwavidyalaya

Bhopal, India

Bachelor of Engineering in Computer Science Engineering

2022-2026

- Completed multiple full-stack projects using JavaScript, React, Node.js, and MongoDB

SKILLS

Frontend: React.js, HTML5, CSS3, JavaScript (ES6+), Bootstrap, Material UI

Backend: Node.js, Express.js, REST APIs, MongoDB, MySQL

Languages: JavaScript, Java (DSA), Python (basics) , Typescript

Tools & Platforms: Git, GitHub, Figma, Oracle Cloud, Redux

CERTIFICATIONS

- MERN Stack Development course – [Apna College 2025]
- Internship Programme on Programming Essential of Python – [CRISP]
- IT Industry Overview | IT Job Tools | Basics of Industry Elements | Basics of Trending Technologies – [TCS 2025]
- Oracle Cloud Infrastructure 2025 Certified AI Foundation Associate – [Oracle]
- Participated in multiple national-level hackathons and coding competitions including EY Techathon, Adobe India Hackathon, and Tata Imagination Challenge.

EXPERIENCE

Indux Technology | Full Stack Developer Intern

Aug 2025 – Present Pune, India

Tech Stack: Typescript, React.js, Redux, Node.js, Express.js, MongoDB, Material UI, REST APIs, Git/GitHub

- Contributed to development of 3 production-level applications: Indux CRM, MagikPro, and Mini CRM
- Developed responsive frontend interfaces using React.js, Redux, and Material UI.
- Built and integrated REST APIs using Node.js, Express.js, and MongoDB.
- Worked on CRM modules including lead management, task tracking, and customer handling.
- Implemented authentication, CRUD operations, form validation, and role-based access control.
- Collaborated with the development team using Git & GitHub to deliver features efficiently.

PROJECTS

ResumeAI – AI-Powered Resume & Career Platform ([Link](#))

Feb 2026 – March 2026

- Built a full-stack AI-powered platform using MERN stack for resume analysis, ATS scoring, and career assistance.
- Implemented AI-based portfolio analyzer, mock interview preparation, roadmap generation, and interview question generation features.
- Developed an AI resume builder capable of generating professional resumes and structured notes dynamically.
- Integrated authentication, REST APIs, responsive UI, and real-time user interactions for a seamless experience.
- Added skill detection, resume improvement suggestions, and personalized career guidance features.
- Tech Stack:** React.js, Node.js, Express.js, MongoDB, Redux, Tailwind CSS, REST APIs

MedGuide AI – AI-Powered Healthcare Platform ([Link](#))

April 2026 – May 2026

- Built a full-stack AI-powered healthcare platform with symptom analysis, emergency support, and medical report management.
- Implemented nearby hospital detection, interactive live maps, and emergency mode using OpenStreetMap APIs.
- Developed AI chatbot assistance, voice input support, and real-time communication features using Socket.io
- Added secure JWT authentication, report uploads, responsive UI, and role-based access control.
- Integrated healthcare dashboard, doctor finder, and medical history management features.
- Tech Stack:** React.js, Node.js, Express.js, MongoDB, Socket.io, Tailwind CSS, REST APIs

Video Conferencing Website ([Link](#))

Sep 2025 – Nov 2025

- Built a Zoom-like video conferencing web app using MERN, WebRTC, and Socket.io.
- Features: Real-time audio/video communication, chat, screen sharing, participant control.
- Tech Stack:** MERN, WebRTC, Socket.io

ACHIEVEMENTS

- Built 5+ full-stack projects including a real-time video conferencing app and an AI virtual assistant.
- Active GitHub contributor with 35+ repositories showcasing MERN, WebRTC, and ML projects
- Participated in 5+ hackathons, consistently delivering working prototypes within 24–48 hour constraints.
